

TITLE: Installation Technician

DEPARTMENT: Integration

JOB LOCATION: Hudson, NH

REPORTS TO: Integration Manager

POSITION OVERVIEW:

The Installation Technician is responsible for performing a wide variety of integration tasks as assigned by the Integration Manager to ensure Game Creek's projects are delivered accurately and on time.

5 KEY RESULTS THAT DEFINE SUCCESS IN THIS JOB:

- Cables are Cut, Terminated, and Installed Per Provided Documentation
- Physical Installation of Equipment as Indicated in Rack System Drawings
- Tools and Testing Equipment Are Properly Maintained
- Workspace is Clean and Organized Daily
- Effective Team Player

JOB RESPONSIBILITIES:

- Physical installation of a wide variety of technology into a wide variety of locations
- Accurately cut cables for bench fabrication to assigned lengths; sort and flag cut cables for rack lacing and/or shipment to project sites as directed
- Prepare and label cables for fabrication both by hand as well as by use of automated striping machines per Game Creek standards
- Execute and test cable terminations for all Broadcast, Network and A/V connectors
- Ability to read and understand cable wire lists as well as project drawings and documentation for cable fabrication
- Preparation of equipment racks for staging of equipment, wire lacing including installation of power strips, grounding bars, jack-fields, etc.
- Mount equipment into racks, terminate all wiring and connections to equipment as per the technical drawings
- Able to build and wire custom panels from engineering drawings
- Fiber optic cable handling, installation termination and testing
- Provide feedback for efficiencies as encountered during fabrication
- Maintain an organized work environment specifically orderliness and cleanliness of the shop
- Responsible for maintaining tools and test equipment
- Maintain daily record of time worked on specific projects for timesheet entry

JOB REQUIREMENTS:

- Ability to complete day-to-day integration tasks as assigned
- Ability to manage a fluctuating workload in a deadline driven environment
- Ability to use active listening skills and communicate potential issues to management
- Safety-minded; ability to follow safety rules, regulations, and procedures and make safety an important component of all shop operations
- Ability to work independently and in a team environment
- Provide a consistent level of technical performance as well as flexibility in work schedule; this position requires periodic overtime

MINIMUM QUALIFICATIONS:

- 1-2+ years of integration experience highly preferred
- Demonstrated understanding of engineering and design project execution
- Proficiency with various broadcast systems and equipment
- Strong communication and interpersonal skills
- Basic computer literacy

PHYSICAL JOB REQUIREMENTS:

- Ability to use one or two hands to grasp, move, or assemble objects
- Specific vision abilities required by this job include close vision, distance vision, color vision, peripheral vision, depth perception, and ability to adjust focus
- Must be able to walk or stand up to 8 hours at a time
- Ability to bend, squat, kneel on both knees, and climb stairs frequently
